

Ace Computers to Showcase Best Sound, Video Quality Media Servers at CES 2018

Ace Computers will be showcasing its MMS media servers with audiophile quality sound and video quality better than Blu-ray at CES 2018 Jan. 9-12 in Las Vegas.

CHICAGO, ILL., U.S., January 5, 2018 -- Multiple CES award winner Ace Computers just announced that it will be showcasing its MMS media servers that feature audiophile quality sound and video quality better than Blu-ray in a sleek, silent chassis at CES 2018 Jan. 9-12 in Las Vegas. The company will also be showing its Firestorm/FORCE/LogiCAD workstations, Nomad tablets and custom/OEM systems.

Ace Computers will be exhibiting from The Las Vegas Convention Center in South Hall 1, Booth 21946.

Ace Computers plans to bring a crowd-attracting Bit Coin Mining Machine. The mining process involves compiling recent transactions into blocks and trying to solve a computationally difficult puzzle. The participant that solves the puzzle first gets to place the next block on the block chain and may receive an additional reward.

Featuring 3,900 exhibitors and an estimated 170,000 attendees from 150 countries, CES is the world's premier event for anyone interested in consumer technologies. For more than 50 years, it has served as the proving ground for innovators and breakthrough technologies and is where next-generation game-changers are introduced to the market.

A high-level business event that touches all industries, CES is also a standout networking event for industry leaders, such as Ace Computers. Every major technology company in the world participates in CES by exhibiting, speaking, sponsoring, attending or holding co-located events and business meetings.

Ace Computers CEO John Samborski said, "CES has always been an excellent opportunity for us to both educate and be educated by top technology innovators. The event is a prolific incubator for new ideas—perfect for companies, such as Ace Computers, that work hard to stay ahead of the curve."

Leading custom computer builder and HPC cluster specialist, Ace Computers currently holds the following contracts: SEWP V, CCS-2, GSA, WSIPC, PEPPM, State of Wis., State of Ga.
